

COL Applicant Perspective on the New Part 52 Licensing Process

Amy M. Monroe
South Carolina Electric & Gas Company

Getting to the End Game

- ▶ Working with a New Licensing Process
- ▶ Blending New Ideas with Lessons Learned
- ▶ Utilizing "Forward Thinking" Management

Dedication

Licensing End Game

- ▶ Coordinating with AP1000 Design Certification (DCD) Amendment Process
- ▶ Staying closely coupled to Reference COLA (Vogtle Units 3 and 4)
- ▶ Advisory Committee on Reactor Safeguards (ACRS) Meetings
- ▶ Mandatory Hearing Process
- ▶ Anticipating License

Coordinating with AP1000 Design Certification Document (DCD) Amendment Process 

- ▶ Constant Open Communications
- ▶ Team Approach with DCWG
- ▶ Flexibility

Staying Closely Coupled to Reference COLA (Vogtle Units 3 and 4) 

- ▶ Constant Open Communications
- ▶ Team Approach with DCWG
- ▶ Flexibility

Note the similarities?

Mandatory Hearing Process 

- ▶ Efficient
- ▶ Utilization of the S-COLA Approach
- ▶ Focus on Site Specific Issues

Lessons Learned

- ▶ Utilizing the Design Centered Working Group approach is useful, especially when so closely coupled with the R-COLA
- ▶ Referencing a DCD undergoing an amendment request simultaneously is a challenge
- ▶ Open, frequent, and transparent communications with all stakeholders are vital
- ▶ Patience is a virtue
